Plan Year 2023 Open Enrollment

Reminders

- **This year is a passive enrollment, meaning if you are currently enrolled in any of the Voluntary Benefits and do not wish to make any changes, your current Voluntary Benefits will automatically rollover to the 2023 Plan Year. You must enroll if you wish to make changes or begin new coverage.**
- Canceling or changing your pre-tax benefits can only be done during Open Enrollment or if you experience a mid-year qualifying life event. If you experience a Qualified Life Event (QLE) (as defined by the Internal Revenue Code (IRC)), you will need to complete an election change via the Selerix BenSelect portal within 30 days.
- **The following Voluntary Benefits will be offered on a guarantee issue* basis:**
 1. Aflac Group Accident Insurance
 2. Aflac Group Critical Illness Insurance
 3. Aflac Group Hospital Indemnity Insurance
 4. Aflac Group Short Term Disability Insurance

* Guarantee issue plans do not require any information about your health status, including information on pre-existing conditions, in order to qualify for these benefits.

What are Voluntary Benefits?

Voluntary Benefits help fit your specific insurance needs and desires. Whether it's a hospital visit due to a broken bone or offering salary compensation in case you cannot work, voluntary benefits add coverage to your overall insurance. In addition to saving money with a plan in place, voluntary benefits are typically offered through an employer at preferred rates not available to individuals on their own. This means going through an employer for Accident Insurance will generally be less expensive than seeking that type of insurance individually. Last but not least, these plans have the added benefit of paying premiums directly through payroll deduction.

Who Is Eligible for Coverage?

The City of Fort Lauderdale offers voluntary benefits to all benefits eligible active full-time employees. These are optional benefit plans that are paid 100% by the employee.

How to Enroll or Make Changes

Self-Enroll with Selerix BenSelect

Complete and submit your 2023 benefit selections through the online enrollment platform Selerix BenSelect. The City of Fort Lauderdale Employee Self-Service website is available at www.benselect.com/enroll. Self-enrollment requires your employee ID and a four digit PIN (All pins have been reset to a 4-digit default pin, which is your 2-digit birth month and the last two digits of your birth year.) For more details on how to enroll, please see your Employee Open Enrollment newsletter.

- Post-tax voluntary benefits can be canceled without a QLE. via the Selerix BenSelect portal. Please note you cannot re-enroll unless you experience a QLE or during the following open enrollment.

Make An Appointment

At any time during Open Enrollment, you can speak with a Professional Benefits Counselor/Enroller to enroll in voluntary and core benefit offerings. If you wish to speak with a Professional Benefits Counselor/Enroller, they will be available to meet with you face-to-face or telephonically. To ensure a convenient and timely enrollment process, **Professional Benefits Counselors/Enrollers will only be available by appointment.**

During your appointment the Professional Benefits Counselor/Enroller will:

- Provide education on core and voluntary benefits
- Answer any questions you may have about different benefit plans
- Assist you with making a decision on benefits that best suit your needs

What is Accident Insurance?

Accident insurance helps cover out-of-pocket costs related to unexpected injuries like a broken arm or a severe burn. This type of insurance provides benefits for initial care, hospitalization, and follow-up care due to covered accidents. Benefits are paid directly to the employee (unless otherwise assigned), regardless of any other coverage employees have.

Aflac Accident Insurance

Aflac Accident Insurance pays you cash benefits for injuries relating to covered accidents for hospital and intensive care confinement. Your plan may also include coverage for a variety of occurrences, such as: dismemberment, dislocation, fracture, ambulance services, physical therapy, and more. The lump-sum cash benefits can be used to help pay for deductibles, treatment, rent, and other needs as they are used at your discretion. By using Aflac Accident Insurance you can:

- Continue to help protect your savings, retirement plans, and 401(a) from depletion
- Help protect your home by paying for the mortgage, continue rental payments, or perform needed home repairs for your after care
- Keep up with your family's living expenses such as bills, electricity, and gas

For more information on the limitations and exclusions of this plan, please see plan certificate.

What is Hospital Indemnity Insurance?

Hospital Indemnity Insurance offers cash benefits to help cover expenses associated with covered illnesses and accidents that confine you to a hospital. With cash paid directly to you, unless otherwise assigned, benefits can cover a range of out-of-pocket expenses like child care, groceries, utility bills, and more. Aflac's Hospital Indemnity Insurance is intended to enhance your current coverage as it is not affected by current personal coverage. It also provides coverage for newborn children for 60 days from their date of birth¹.

How it Works: Hospital Admission

Hospital admission benefit per confinement (once per covered sickness or accident per calendar year for each insured)

Payable when an insured is admitted to a hospital and confined as an in-patient because of a covered accidental injury or covered sickness. The insurance will not pay benefits for confinement to an observation unit, or for emergency room treatment or outpatient treatment. The insurance will not pay benefits for admission of a newborn child following their birth; however, the insurance will pay for a newborn's admission to a Hospital Intensive Care Unit if, following birth, he or she is confined as an inpatient as a result of a covered accidental injury or covered sickness (including congenital defects, birth abnormalities, and/or premature birth).

Hospital Confinement

Payable each day an insured person is confined to a hospital as an inpatient because of a covered accidental injury or a covered sickness. If the insured person becomes confined again within six months due to the same or related condition as the first confinement, Aflac will treat this confinement as the same period of covered injury/sickness. This benefit is payable for only one hospital confinement at a time even if the stay is caused by more than one covered accidental injury, more than one covered sickness, or a covered accidental injury and a covered sickness.*

Hospital Intensive Care

Payable for each day that an insured person is confined in a hospital intensive care unit because of a covered accidental injury or a covered sickness. This benefit is payable in addition to the Hospital Confinement Benefit. Aflac will pay benefits for only one confinement in a hospital's intensive care unit at a time, even if it is caused by more than one covered accidental injury, more than one covered sickness or a covered accidental injury and a covered sickness. If benefits were fully paid out for one condition and an insured person becomes confined to a hospital's intensive care unit again within six months because of the same or related condition, Aflac will treat this confinement as the same period of injury/sickness.

Intermediate Intensive Care Step-Down Unit

Payable for each day that an insured person is confined in an intermediate intensive care step-down unit because of a covered accidental injury or a covered sickness. Aflac will pay benefits for only one confinement in an intermediate intensive care step-down unit at a time. Even if it is caused by more than one covered accidental injury, more than one covered sickness or a covered accidental injury and a covered sickness. If the insured person becomes confined again within six months because of the same or related condition, Aflac will treat this confinement as the same period of injury/illness.

This benefit is payable in addition to the Hospital Confinement Benefit.

The insured person must be admitted to a hospital within six months of the date of the covered accident for benefits to be payable.

*Applies to newly adopted children as well. Refer to the plan for complete details

What is Short-Term Disability Insurance?

Short-Term Disability Insurance pays out a percentage of your salary if you become temporarily disabled. If you are unable to work for a short period of time, due to illness or injury that happens outside of work, benefits will be payable to help you. Benefits offer money for expenses that may come up because of medical treatment or ongoing living expenses. Coverage does not replace core health insurance as it is a limited benefit.

Short-Term Disability benefits begin after you meet the definition of disability and satisfy the waiting period. Benefit payments can continue while you are disabled up to the maximum benefit duration you select. Please refer to the Short-Term Disability brochure for the full plan and exclusion details.

Benefits will be paid for only one disability at a time, even if the disability is caused by more than one sickness, more than one injury, or a sickness and an injury. Aflac reserves the right to meet with the covered employee while a claim is pending, or to use an independent consultant and physician's statement to determine whether the covered employee is qualified to receive disability benefits.

Here's How Aflac Can Help

The financial obligations of not being able to work can be overwhelming. Disability insurance plays an integral and important role in your financial planning to help you keep your savings.

Aflac provides benefits for both total and partial disability. Even if you're able to work, partial disability benefits may be available to help compensate for lost income.

Aflac does not coordinate benefits with other companies.

Regardless of any other disability insurance you may have, including Social Security, we will pay you directly.

Disability due to pregnancy and childbirth is a payable covered sickness. Disability benefits for childbirth will be payable only after the plan has been in force for nine months. The maximum period allowed for Disability due to childbirth is six weeks for non-cesarean delivery and eight weeks for cesarean delivery, less the Elimination Period, unless you furnish proof that your Disability continues beyond these time frames due to complications of pregnancy.
